

SecureVault Design System

Exports to a dark mode design system. Enclosed in Typography Scale, Color Palette, Spacing Grid, and Component

The terms in this document refer to the core tokens and component states that are utilized by the Secure Vault Dashboard (Dark Mode).

Typography Scale

The font used in the header is Primary font. The font used in the header is Primary font.

BibTeX: Font: monospace, style: JetBrains Mono

Scale:

H1 (Display): 1.875rem / 30px — 700

H2 (Section): 1.25rem / 20px — 600

H3 (Card Title): 1rem / 16px — 600

Body Large (Explorer labels): 0.9375rem / 15px — 500

Body (Default): 0.875rem / 14px — 400

Caption / Console: 0.75rem / 12px — 400

Color Palette (Dark Mode tokens)

--canvas-deep: hsl(230, 25%, 7%)

--surface-dark: hsl(230, 20%, 11%)

--surface-light: hsl(230, 15%, 16%)

--surface-selected: hsla(160, 100%, 45%, 0.08)

--accent-secure: hsl(160, 100%, 45%)

--accent-info: hsl(190, 100%, 45%)

--text-primary: hsl(210, 16%, 92%)

--text-muted: hsl(215, 8%, 45%)

--danger: ff3b5c

Usage guidelines

Use `--canvas-deep` to get background all over the page.

For main panels/cards use `--surface-dark`.

Accent colors (--accent-secure, --accent-info) should be used sparingly for verified state

and in-progress actions.

Spacing Grid

Base spacing unit: 8pt

Small: 4px

Base: 8px

Medium: 16px

Large: 24px

XLarge: 32px

Layout notes:

Left explorer (16px indent + 8px base offset)

Component States

Button

- Default: background `transparent`, border `1px solid rgba(255,255,255,0.04)`
- Hover: background `rgba(255,255,255,0.02)`
- Active (primary): background is light with accent info or accent secure text.- Active (primary): background is light and accent info or accent secure text.
- disabled: opacity: 0.5; pointer-events: none

Explorer Item

- Default: text `--text-primary`

Choose one of the colors listed and apply it to the background and the left border using the hover and the selected states. Select one of the colors listed and use the hover and selected states to apply it to the background and the left border.

- Focused (keyboard): outline `2px solid rgba(190, 245, 255, 0.08)` and subtle glow

Hash Card

Idle: text not active, at a place hex scrambled

- Scanning: animated scrambled characters, progress bar with `--accent-info`

Verified: green badge `--accent-secure`, verified hash shown.

Accessibility Notes

All interactive elements are to be keyboard accessible (tabindex as required).

Make sure primary text is at WCAG AA contrast ratio on dark backgrounds.

Use `aria-expanded`, `role=tree`, `role=treeitem`, and `aria-selected` in the explorer.
